You will be transferred to the airport to take your flight to Aswan and connect with your short flight to Abu Simbel. The Abu Simbel temples are two massive rock temples located South of Egypt near the border with Sudan. This is part of the UNESCO World Heritage Site known as the Nubian Monuments. They serve as a lasting monument to King Ramses II and his queen Nefertari, and commemorate his victory at the Battle of Kadesh. Their huge external rock relief figures have become iconic. The relocation of the temples was necessary in 1968, or they would have been submerged during the creation of Lake Nasser, the massive artificial water reservoir formed after the building of the Aswan High Dam. Afterwards, you will be transferred to the airport for your flight back to Aswan. Upon arrival you will be met and transferred to your hotel. Enjoy the afternoon at leisure to enjoy the hotel. **SOFITEL OLD CATARACT HOTEL – Luxury room Palace Wing (B)**

King Tutankhamun's mummy still rests in his tomb in the Valley of the Kings. On November 4, 2007, 85 years to the day after Carter's discovery, the 19-year-old pharaoh went on display in his underground tomb at Luxor, when the linen-wrapped mummy was removed from its golden sarcophagus to a climate-controlled glass box. This temple has been in almost continuous use as a place of worship right up to the present day. Upon arrival you will be met and start your exploration of Dendera and Abydos. These two temples are less visited. Continue to Abydos. Abydos was the burial place for the first kings of a unified Egypt. Cemetery U contains several hundred graves and offering pits.
